The act of March 4, 1909, going into effect July 1, 1909, provides that the Catalogue of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyrighted registration."

**T**HE Catalogue of Copyright Entries is published in four parts. Part 4, issued quarterly, is arranged in two alphabets of proprietors, with sub-alphabets of titles as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproduction deposited according to law with the applications for copyright of Drawings, Paintings, Statutes, Statuary, and Models of Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (\*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations.

Titles for Class L, Motion-picture photoplays, and Class M, Motion pictures other than photoplays, have been transferred to Part 1, Group 2, of the Catalogue because of their similarity to Class D, Dramatic compositions, and are published monthly therein as a title list.

Under the act of March 4, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G," Class G, Works of art; "H," Class H, Reproductions of a work of art; "I," Class I, Drawings or plastic works of a scientific or technical character; "J," Class J, Photographs; and "K," Class K, Prints and pictorial illustrations. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction; and "2 c." for 2 copies, followed by the date of their receipt. In the case of foreign works and pictorial contributions to periodicals, only 1 copy is required.

The annual index of proprietors, portraits, and principal artists is furnished for this part in the final issue for the year. The subscription price for part 4, which must be for the complete calendar year, is \$0.50 a year, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

No. 2

---

The act of March 4, 1909, going into effect July 1, 1909, provides that the Catalogue of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyrighted registration."

---

**T**HE Catalogue of Copyright Entries is published in four parts. Part 4, issued quarterly, is arranged in two alphabets of proprietors, as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproduction deposited according to law with the applications for copyright of Drawings, Paintings, Statutes, Statuary, and Models of Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (\*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of titles only is used.

Titles for Class L, Motion-picture photoplays, and Class M, Motion pictures other than photoplays, have been transferred to Part 1, Group 2, of the Catalogue because of their similarity to Class D, Dramatic compositions, and are published monthly therein as a title list.

Under the act of March 4, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G," Class G, Works of art; "H," Class H, Reproductions of a work of art; "I," Class I, Drawings or plastic works of a scientific or technical character; "J," Class J, Photographs; and "K," Class K, Prints and pictorial illustrations. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction; and "2 c." for 2 copies, followed by the date of their receipt. In the case of foreign works and pictorial contributions to periodicals, only 1 copy is required.

The annual index of proprietors, portraits, and principal artists is furnished for this part in the final issue for the year. The subscription price for part 4, which must be for the complete calendar year, is \$0.50 a year, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

The Copyright Act of 1909 provides that of the articles deposited for copyright registration the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress and what other books or articles shall be transferred to other governmental libraries in the District of Columbia for use therein.

The Act further provides that any article undisposed of as above and still remaining on the shelves of the Copyright Office may be returned to the claimant of copyright under the provisions of section 60 of the Act.

NOTICE is, therefore, hereby given to any author, copyright proprietor, or other lawful claimant that, in so far as any copyright articles deposited from July 1, 1915, to June 30, 1920, inclusive, are still remaining in the files of the Copyright Office and are not to be transferred to the Library of Congress or to any other governmental library in the District of Columbia, such books or articles may be returned to the claimant of copyright if requested by such claimant prior to December 31, 1926.

The act of March 4, 1909, going into effect July 1, 1909, provides that the Catalogue of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyrighted registration."

**T**HE Catalogue of Copyright Entries is published in four parts. Part 4, issued quarterly, is arranged in two alphabets of proprietors, as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproduction deposited according to law with the applications for copyright of Drawings, Paintings, Statutes, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (\*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of titles only is used.

Titles for Class L, Motion-picture photoplays, and Class M, Motion pictures other than photoplays, have been transferred to Part 1, Group 2, of the Catalogue because of their similarity to Class D, Dramatic compositions, and are published monthly therein as a title list.

Under the act of March 4, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G," Class G, Works of art; "H," Class H, Reproductions of a work of art; "I," Class I, Drawings or plastic works of a scientific or technical character; "J," Class J, Photographs; and "K," Class K, Prints and pictorial illustrations. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction; and "2 c." for 2 copies, followed by the date of their receipt. In the case of foreign works and pictorial contributions to periodicals, only 1 copy is required.

The annual index of proprietors, portraits, and principal artists is furnished for this part in the final issue for the year. The subscription price for part 4, which must be for the complete calendar year, is \$0.50 a year, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

The act of March 4, 1909, going into effect July 1, 1909, provides that the Catalogue of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyrighted registration."

**T**HE Catalogue of Copyright Entries is published in four parts. Part 4, issued quarterly, is arranged in two alphabets of proprietors, as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproductions deposited according to law with the applications for copyright of Drawings, Paintings, Statutes, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (\*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of titles only is used.

Titles for Class L, Motion-picture photoplays, and Class M, Motion pictures other than photoplays, have been transferred to Part 1, Group 2, of the Catalogue because of their similarity to Class D, Dramatic compositions, and are published monthly therein as a title list.

Under the act of March 4, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G," Class G, Works of art; "H," Class H, Reproductions of a work of art; "I," Class I, Drawings or plastic works of a scientific or technical character; "J," Class J, Photographs; and "K," Class K, Prints and pictorial illustrations. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction; and "2 c." for 2 copies, followed by the date of their receipt. In the case of foreign works and pictorial contributions to periodicals, only 1 copy is required.

The annual index of proprietors, portraits, and principal artists is furnished for this part in the final issue for the year. The subscription price for part 4, which must be for the complete calendar year, is \$0.50 a year, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

## NOTICE

---

The Copyright Act of 1909 provides that of the articles deposited for copyright registration the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress and what other books or articles shall be transferred to other governmental libraries in the District of Columbia for use therein.

The Act further provides that any article undisposed of as above and still remaining on the shelves of the Copyright Office may be returned to the claimant of copyright under the provisions of section 60 of the Act.

NOTICE is, therefore, hereby given to any author, copyright proprietor, or other lawful claimant that, in so far as any copyright articles deposited from January 1, 1920, to December 31, 1925, inclusive, are still remaining in the files of the Copyright Office and are not to be transferred to the Library of Congress or to any other governmental library in the District of Columbia, such books or articles may be returned to the claimant of copyright if requested by such claimant prior to December 31, 1927.

This notice includes any *printed and published* copyright deposits such as books, periodicals, dramatic compositions, musical compositions, engraving, cuts, or prints, lithographs, photo-engravings, or photographs. Manuscripts or typewritten dramas and photographs filed for identifying works of art may not be returned. No maps are available for return.

To secure such possible return the claimant of copyright of record should make formal request for the return of the articles, which must be separately and definitely specified. A suitable blank will be supplied on request. Address REGISTER OF COPYRIGHTS, Library of Congress, Washington, D. C.
